Chronology

The LMF document for ISO CD ballot has been produced on 15th March 2006 by Gil Francopoulo and Monte George with the help of Monica Monachini, Nicoletta Calzolari and Claudia Soria (CNR-ILC). Various LIRICS partners have been involved in the editing of this document as well in commenting former versions of the CD proposal of LMF. Also various members of national standardization bodies have been involved in this activity. We cannot report all of them here, but we are particularly grateful to the LIRICS member for having commented on the former versions of LMF and provided input. In particular, Gil Francopoulo (LORIA) co-project leader of the ISO WG4 who as coordinator of LIRICS was very effective in coordinating the exchange of information and the discussion between the editors of LMF the LIRICS partners.

The CD ballot has been conducted by the Korean National delegation (KATS) who is in charge of the ISO-TC37/SC4 secretary.

The ISO National delegations had until 30th June 2006 to express their vote and comments.

The document is on the web site under the title:

Language Resource Management - Lexical Markup Framework (LMF) rev-9
